

*The Great  
Nurse  
by Cissata  
and Laura*

*Florence was born in Italy  
and was named after the city  
where she was born in 1820.  
She lived with her mum, dad  
and big sister Parthenope.*

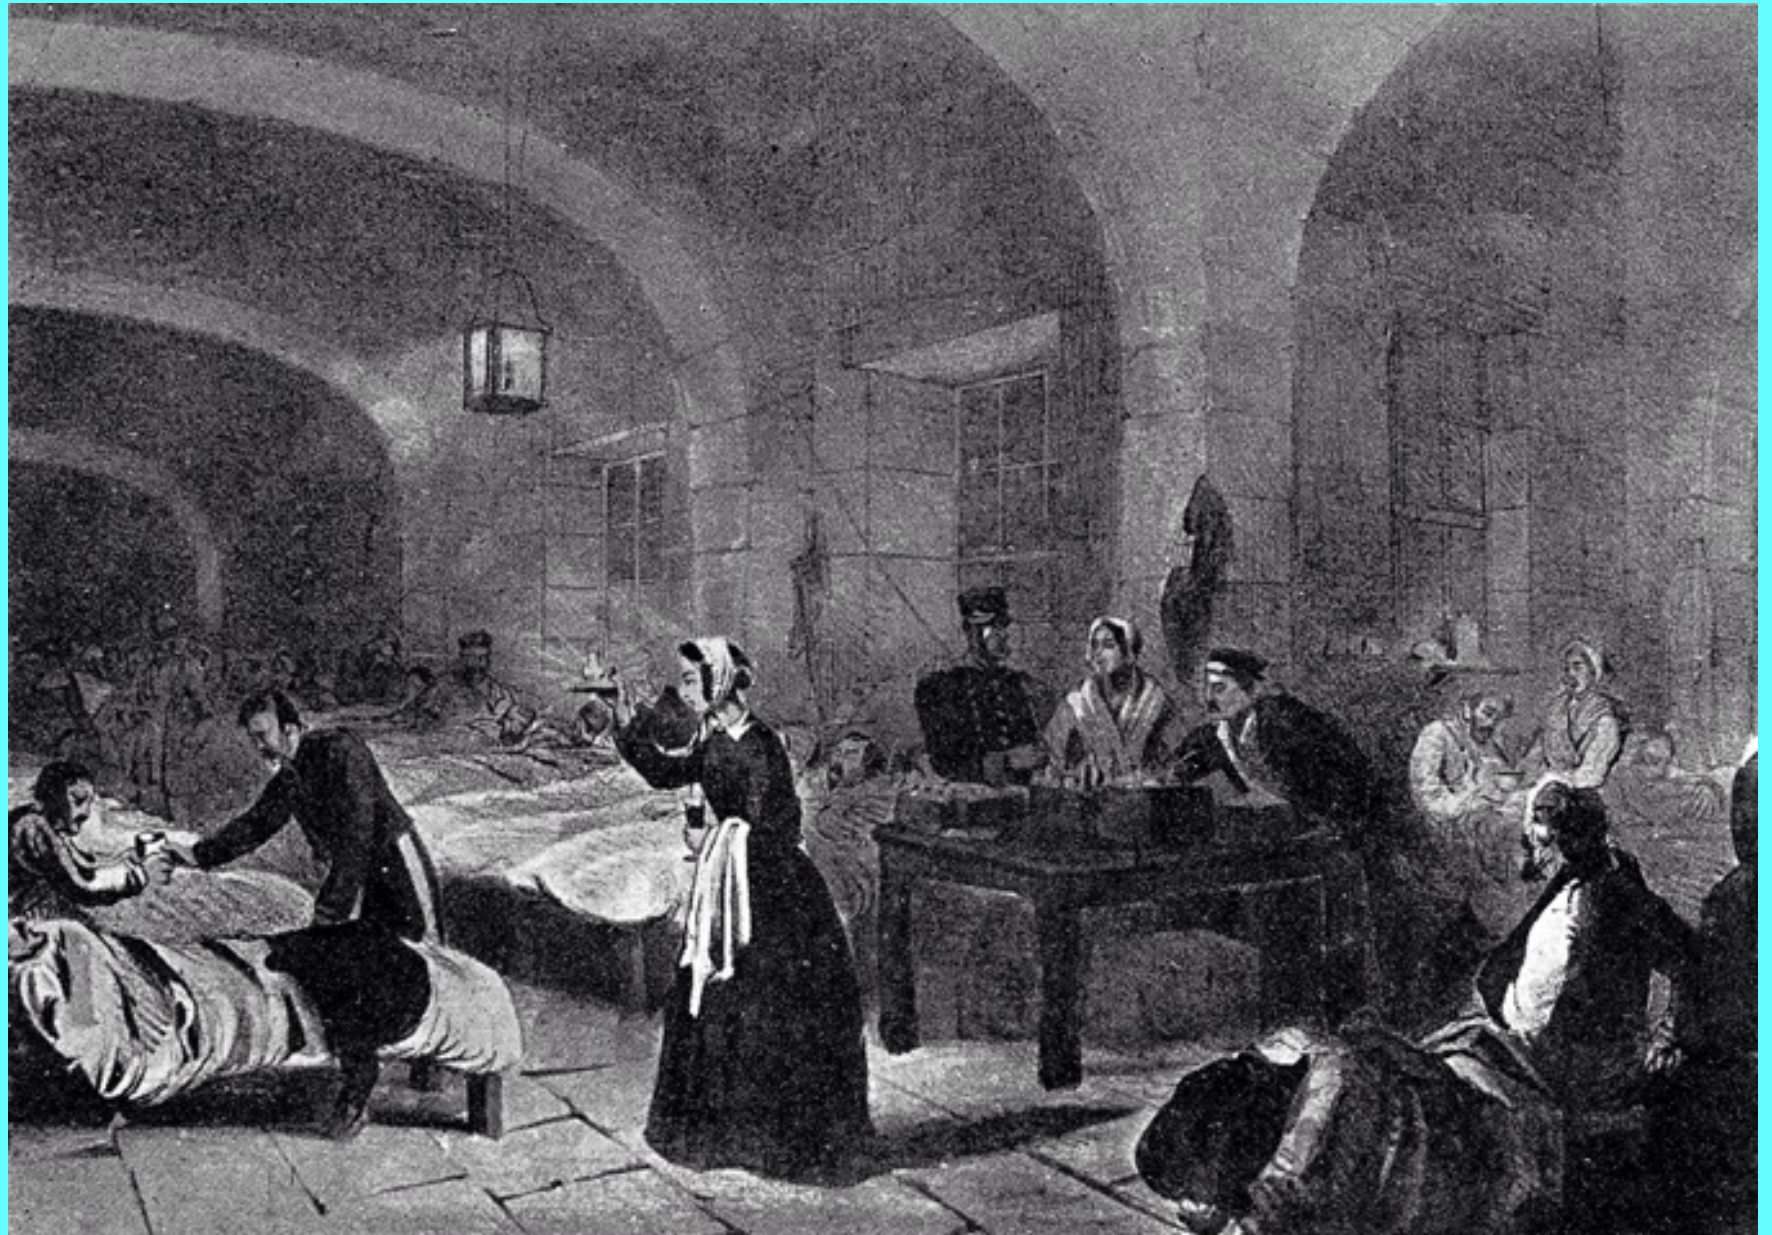

*When Florence  
grew up she  
continued her dream  
and began training  
to be a great nurse.*

*Once her training was finished Florence and all the other nurses started to travel to Scutari.*

*Unfortunately she got sea sickness on the boat out there.*

*Florence Nightingale had a great career as a nurse and helped shape the nursing that happens today. As she became old and was given a Red Cross award as a thank you for her hard work as a nurse.*

*Sadly she died  
in her sleep in  
1910*
